Junior Data Scientist | Junior Software Developer

1.Professional Summary

I am a junior Developer with a strong foundation in HTML, CSS, JavaScript, React, TypeScript, Tailwind CSS, and Laravel. Experienced in building responsive, user-friendly web applications and collaborating in team-based software development projects. Passionate about creating intuitive user interfaces, writing clean, maintainable code, and continuously learning modern frontend technologies. Seeking a Frontend Developer role where I can contribute to building high-quality digital products while growing as a software engineer.

I also have Data Science and Machine Learning with hands-on experience in Python, SQL, Pandas, Power BI, and data analysis. Experienced in data cleaning, preprocessing, visualization, and developing machine-learning solutions, including building and deploying a Python-based prediction applications. Strong analytical and problem-solving skills with a passion for turning data into practical insights.

2.Technical Skills

- **Web Development:** HTML, CSS, Bootstrap, Tailwind CSS, React, Laravel, Typescript
- **Programming**: Python, JavaScript, PHP, Java
- **Data Science & Machine Learning:** Pandas, Scikit-learn, Data Preprocessing, Model Training & Evaluation, Data Analysis, Machine Learning Pipelines, Stream lit Deployment, Neural networks
- **Database:** MySQL, SQL
- **Tools:** Git, GitHub, VS Code, npm, Vite
- **Data and Analytics**: Power BI, MS Office, SPSS, Google sheets

Soft Skills:

- Problem solving
- Team work, collaboration and communication
- Flexible
- feedback

3.Project Experience

Autism Prediction System (Group)

- Developed and deployed a machine learning model to predict autism spectrum disorder (ASD) using behavioral and medical data. Included data preparation, model training, and evaluation, with a Streamlit interface to enable real-time predictions.
- Cleaned and prepared behavioral and medical datasets for machine-learning model development.
- Identified and addressed missing values, inconsistent records, and data-quality issues during preprocessing.

Technologies: Python, TensorFlow, Scikit-learn, jupyter notebooks, Google Colab

Sipi Falls Tourism Website (Personal)

- Designed and developed a responsive tourism website showcasing Sipi Falls.
- Built an online booking interface to simplify the reservation process for visitors.
- Created intuitive navigation and responsive layouts to enhance the user experience across devices.
- Implemented the website using modern frontend technologies and best practices.

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Laravel, React

Learning Management System (Team Project) Frontend Developer

- Developed responsive user interfaces using React, TypeScript and Tailwind CSS.
- Built reusable frontend components to improve consistency across the application.
- Integrated frontend pages with backend APIs to support application functionality
- Collaborated with team members using Git and participated in testing and resolving UI issues.

Technologies: React, TypeScript, Tailwind CSS, Vite, Git

4.Work Experience

Uganda Police Force — ICT Department-Intern

- Supported installation, configuration, and maintenance of computer systems and ICT equipment.
- Assisted with troubleshooting hardware, software, and basic network connectivity issues.
- Supported basic network infrastructure setup, including Ethernet cable termination and connectivity testing.
- Applied basic ICT security and system maintenance practices.

5. EDUCATION BACKGROUND

Bachelor of Business Computing
Makerere University Business School | August 2023 – Present Relevant Coursework: Databases, Software Development

Certificate in Data Science & Machine Learning Refactory Academy | September 2025 Cohort
Focus: Data preprocessing, exploratory data analysis, machine learning model development, evaluation, and deployment using Python and Streamlit

Uganda Advanced Certificate of Education
John Paul Secondary School, Chelekura | 2021 – 2022

Uganda Certificate of Education
John Paul Secondary School, Chelekura | 2015 – 2019

6.Languages

- English (fluent)
- Kubsabiny
- Luganda(fair)
- Kiswahili(fair)
